MECP Mobile Product Specialist Certificate Exam Contents

The MPS exams requires a passing score of 70% or greater in each of the five sections to earn the MPS certificate. MECP exams must be completed in three hours or less.

MOBILE PRODUCT SPECIALIST CERTIFICATE – No experience prerequisite

The 150-question Mobile Product Specialist (MPS) certificate examination evaluates mobile electronics sales professionals' daily working knowledge of basic vehicle electronics and terminology, entertainment and convenience solutions, audio system design principles, shop safety, and installation considerations. Unlike the MECP installation technician certifications, the MPS certificate program assesses knowledge fundamental to a retail sales professional employed in a typical mobile electronics retail environment.

Requirements for MECP Mobile Product Specialist Certificate

There are no prerequisites for taking the MECP MPS certificate exam. It's intended for sales professionals with some knowledge of the 12v aftermarket electronics business.

Study resources for the MECP Mobile Product Specialist exam are:

- [MECP Mobile Product Specialist study guide, Fourth Edition](#)
- [MECP Basic Installation Technician study guide, Third Edition](#)

The MECP MPS certificate is valid for four years, at which time certificate holders must retest at the MPS level or opt to test at an MECP Basic or Advanced technician certification (with required work experience).
